

## NETWORKS AND DISTRIBUTED SYSTEMS LAB

### Networked Systems Lab

"Networked Systems Lab" is a lab work for **M.Sc.** students of Computer Science (and related study programs). It is held as a scientific project ( > individual (<https://lsf.ovgu.de/qislsf/rds?state=verpublish&status=init&vmfile=no&moduleCall=webInfo&publishConfFile=webInfo&publishSubDir=veranstaltung&veranstaltung.veranstid=136083>)

as a > team (<https://lsf.ovgu.de/qislsf/rds?state=verpublish&status=init&vmfile=no&moduleCall=webInfo&publishConfFile=webInfo&publishSubDir=veranstaltung&veranstaltung.veranstid=134780>)

<b>Instructor:</b>	Prof. Dr. David Hausheer
<b>Assistants:</b>	
<b>Hours per week:</b>	0 + 4
<b>Credits:</b>	6
<b>Kick-off Date:</b>	<b>Thursday, 11.10.2018, 13:15 - 14:45, Location:G02-111</b>
<b>Languages:</b>	English/German

### Introductions Slides

- ▶ The introduction slides with the topics are available now.

### Course Description

The course deals with cutting edge development topics in the area of networked systems. The topics are selected according to t specific working areas of the participating researchers and convey technical and basic scientific competences in one or more of the following topics:

- ▶ Software-defined networking
- ▶ Network functions virtualization
- ▶ Network security
- ▶ Peer-to-peer and overlay networks
- ▶ Mobile networks, video streaming
- ▶ Energy-efficient networking
- ▶ Network simulation
- ▶ Economic aspects (network economics, incentive mechanisms)

### Competencies

The ability to solve and evaluate problems in the area of design and development of communication networks and applications.

Acquired competences are:

- ▶ Requirements engineering, design, implementation, and testing of scalable, efficient, and reliable software components and communication protocols for applications in communication networks
- ▶ Application of object-oriented programming techniques
- ▶ Writing of software documentation and project reports
- ▶ Presentation and demonstration of project result

### Requirements

- ▶ Students of MSc CV/INF/INGINF/WIF
- ▶ Solid programming experience
- ▶ Solid knowledge of communication protocols

- ▶ Basic courses of the first 4 semesters are required. Knowledge of lectures Communication and Networks are recommended.
  - ▶ Interest to develop challenging solutions for communication networks and applications
-
